

Program Completers SMART Goals Report, 2020-22

Response Date	#Years Taught	Academic Year	Grade Level	SMART Goals Data Source	Specific SMART Goal(s):	Percent Met
9/22/21	1.5	2020-2021	5th	We did not complete and turn in SMART goals due to the pandemic and our class rosters/subjects changing each semester. I monitored student F&P reading scores while I was a reading teacher and worked to improve/ 'level up' our reading.	I attempted to monitor student progress in F&P levels with the goal that students would increase by at least one letter level each semester. I was then switched to only teaching math, given an entirely new class of students, switched back to reading, given a second class, then switched to self contained, then switched back to being a reading teacher so all data was unusable.	Unknown

Response Date	#Years Taught	Academic Year	Grade Level	SMART Goals Data Source	Specific SMART Goal(s):	Percent Met
9/22/21	1	2020-2021	Art Pre-k -5th	Prior SOL scores, previous grades in Art, pacing guides	Include Art in STEAM based learning. Incorporate core subjects into art. Have students learn the Elements of Art.	70%-80%

Response Date	#Years Taught	Academic Year	Grade Level	SMART Goals Data Source	Specific SMART Goal(s):	Percent Met
9/24/21	2	2020-2021	First Grade	PALS and math goals	<p>Reading Goal: For the 2020-2021 school year, all of my first-grade students will make measurable growth on PALS by increasing their scores in the area of spelling.</p> <p>According to the baseline data, I will have the following goal for tiers of students: Tier 1 Students scoring 66 or higher for the Fall PALS summed score will continue to meet and exceed the PALS benchmark score in Spring 2021. Tier 2 Students scoring between 42-65 for the Fall PALS summed score will score 20 or higher in the subcategory of spelling on the 2021 Spring PALS assessment. Tier 3 Students scoring between 1-41 for the Fall PALS summed score will score 10 or higher in the subcategory of spelling on the 2021 Spring PALS assessment.</p> <p>Math Goal: Based on a 40 problem paper test, 100% of my students will master their addition facts according to the following tiers. Tier 1 Students who correctly solve 30 or above on the fall assessment will score 100 % on the spring assessment. Tier 2 Students who correctly solve 20-29 on the fall assessment will score at least 80% on the spring assessment. Tier 3 Students who correctly solve below 20 on the fall assessment will master facts 1-6 on the spring assessment.</p>	<p>Reading Goal: 89% met the goal. Math Goal: 83% met the goal.</p>
